

KHUSHI GUPTA

Full Stack Developer (MERN) | Software Engineer

+91 7037046458 | khushigupta512005@gmail.com

[LinkedIn](#) | [GitHub](#) | [Leetcode](#) | [Portfolio](#)

Summary

Full Stack Software Engineer (Computer Science Engineering) with hands-on experience across the **MERN stack, Python, RESTful API design, JWT authentication, Role-Based Access Control (RBAC), MongoDB, MySQL, React.js, Node.js, and Express.js**. Experienced in building and **deploying** secure, scalable web applications: **CRUD operations, API integration & testing, authentication, authorization, responsive UI, analytics dashboards**, and database-driven systems, using **Git/GitHub** in **Agile**, cross-functional development workflows. Strong foundation in **Data Structures and Algorithms, Object-Oriented Programming, Database Systems, Operating Systems, and Computer Networks**, with **200+ DSA problems solved on LeetCode**.

Education

Future Institute of Engineering & Technology, Bareilly	2023 – 2027
Bachelor of Technology in Computer Science Engineering	CGPA: 8.0
Relevant Coursework: Data Structures & Algorithms, Database Systems, Operating Systems, Computer Networks	
St. Joseph's Senior Secondary School, Puranpur	2022
Intermediate – PCM	79%
St. Joseph's Senior Secondary School, Puranpur	2020
High School	86%

Technical Skills

Languages: Python, JavaScript (ES6+), TypeScript, SQL

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Flexbox, DOM Manipulation, Responsive Web Design

Backend: Node.js, Express.js, RESTful APIs, API Integration, CRUD Operations

Databases: MongoDB, MySQL, SQLite, Database Design, Data Modeling

Authentication: JWT Authentication, Role-Based Access Control (RBAC), Authorization, Secure API Access

Testing & Deployment: Postman (API Testing), Git, GitHub, Render, Vercel, Agile Collaboration

Tools & Concepts: MERN Stack, Data Structures & Algorithms, OOP, Debugging, Software Development Lifecycle

Experience

Frontend Developer Intern – Twwios Technologies Pvt. Ltd. Jul 2026 – Present

- Converted **Figma UI/UX designs** into responsive, reusable **React.js** components across the platform's booking and marketplace modules using **HTML, CSS, JavaScript, and Tailwind CSS**.
- Built **responsive layouts** tested across 3 breakpoints (mobile, tablet, desktop), ensuring a consistent **cross-device UX** in production.
- Collaborated with a cross-functional development team in an **Agile workflow** to translate design requirements into pixel-accurate frontend interfaces, iterating on peer and lead feedback each sprint.

Full Stack Development Intern – Codemax Digital Solutions Jun 2026 – Jul 2026

- Built and integrated **RESTful API** endpoints supporting **CRUD operations**, connecting React frontend components to backend services.
- Performed **debugging, API testing (Postman), and problem-solving** across the frontend and backend stack in a practical, deadline-driven development environment.

Projects

Complaint & Issue Tracking System MERN Stack, MongoDB, Express.js, React.js, Node.js, JWT | [GitHub Repo](#) | [Live Demo](#)

- Architected a full-stack **MERN application** for end-to-end complaint lifecycle management across **separate user and admin workflows**, deployed live on **Render**.
- Implemented secure **JWT authentication and Role-Based Access Control (RBAC)** to protect complaint data and restrict administrative operations across all API routes.
- Developed and **unit-tested (Postman) RESTful APIs** supporting complaint CRUD operations, threaded comments, status management, and notification workflows.
- Built an interactive **React and Recharts analytics dashboard** to visualize resolution time, workload distribution, complaint categories, and trends in real time.

AI Chatbot for FAQ Automation Python, NLP, Scikit-learn, React.js, REST APIs | [GitHub Repo](#) | [Live Demo](#)

- Developed an **AI-powered FAQ chatbot** using **Python, NLP, Scikit-learn**, and semantic matching to automate **intent classification** for frequently asked queries.
- Exposed chatbot functionality through **RESTful APIs** and built a real-time **React-based chat interface**, deployed live on **Render**.
- Built an **admin module** to manage FAQs, review unanswered queries, and continuously improve model training data, streamlining chatbot maintenance.

Achievements & Certifications

Achievements: 2nd Rank in College – AKTU Semester Examination | Solved **200+ DSA Problems** on LeetCode across arrays, trees, graphs, and dynamic programming.

Certifications: Cisco Networking Academy – Introduction to Modern AI | IBM Skills Network – Artificial Intelligence Virtual Internship | NASSCOM – Digital Application Fundamentals (STEM)
